

# Una Bishnu Kumar Patro

**Senior Business Analyst | Data-Driven Transformation | SAP & Digital Solutions | Agile Practitioner**

Energetic and results-driven professional seeking senior-level **Business Analysis** opportunities with a reputed organization in **Bengaluru**.

## **Executive Profile:**

- Senior Business Analyst with nearly 15 years of experience across IT, insurance, manufacturing, treasury, ERP automation, finance transformation, and shared services. Adept at converting complex business needs into data-driven requirements, user stories, and scalable solutions.
- Proven experience in SAP implementations, process transformation, and automation initiatives that deliver measurable business value. Strong background in Agile delivery, stakeholder management, UAT, and cross-functional collaboration.
- Proficient in JIRA, Confluence, ServiceNow, Figma, and Azure DevOps, with a focus on enhancing user experience through structured validation, error handling, and process optimization.
- Managed product backlog prioritization, supported sprint planning, defined API integration requirements, and performed root cause analysis to improve system performance and reduce defects.

## **Notable Accomplishments Across the Career:**

- Received recognition for implementing a new ERP system and performing cost analysis for AIG's EMEA operations.
- Earned the Best Team Award and Gold Award from AIG for successful SAP implementation across Italy and Europe.
- Saved over 200 man-hours per month by standardizing the AP PIT account process at Wipro.
- Successfully delivered five global transitions across Wipro, AIG, and EFL.
- Improved productivity through Lean initiatives, cost control, P&L impact analysis, and automation.
- Led process improvement initiatives to establish controls and enhance validation reporting.
- Recognized with the High Achiever Award in Q1 2017, Q3 2018, and Q1 2019.
- Certified Scrum Product Owner (CSPO)

## **SDLC Projects:**

- POD application development
- TESSA BOT for Treasury, FinOps BOT, M2O Chatbot, and Partner Central Chatbot
- SAP integration and automation
